A day with KleverKey

KleverKey combines all your virtual keys in one App. A KleverKey is more than just a key. It controls access to your devices and services in a simple way.

Share Keys anytime

KleverKey allows you to remotely share access with everyone you choose in a secure, easy and quick fashion.

Your benefits:

- Grant Access remotely
- Restricted Access (one-time, time-profile...)
- Activity Logfiles
- Revoke granted Accesses anytime

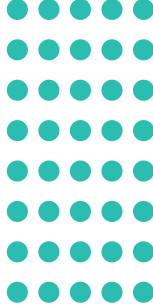

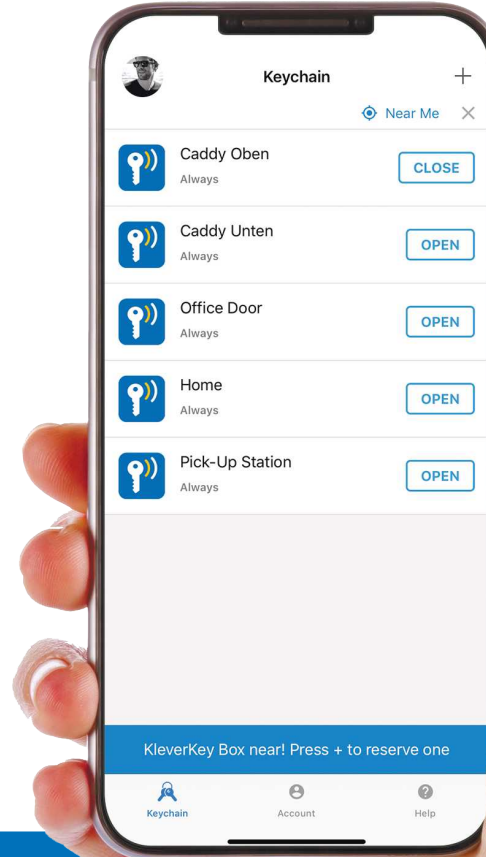

Share & Revoke Keys
remotely, 24x7
